

Limited Warranty for IPVISOLA Power Flexible PV Module

1、Details information as follow:

PI No.	Product	Quantity	Loading date
ISMQ240013	2x210W Flexible	444set	2024-04-29
ISMQ240057		444set	2024-05-13

TAI ZHOU JN LIGHT WEIGHT ENERGY CO .,LTD. ("Supplier") shall guarantee the quality of Flexible PV Modules of our company.

2、Quality Warranty

2.1 The supplier agrees to provide the buyer with products that are test qualified by supplier (except for products specially requested by the buyer). Additionally, the appearance of the products must be consistent with the agreed-upon standards of appearance as between the buyer and supplier.

2.2 The supplier warrants that its photovoltaic solar modules, including factory-assembled DC connectors and cables, are free from serious visual defects in materials and workmanship which defined by agreement between Buyer and **TAI ZHOU JN LIGHT WEIGHT ENERGY** or that cause abnormal power output under normal application and installation. If any of these visual defects appeared within **twelve years(12)** from the date of sale as shown on the invoice to the direct customer of support, the supplier will consult with the customer to determine whether to repair or replace the product, or refund the purchase price paid by the customer. The repair or replacement or refund remedy, at the option of support, shall be the sole and exclusive remedy provided under the "Limited Product Warranty".

For PV modules used in non-static installation scenarios, such as long-term vibration, turbulence, folding, buckle type fixation, handling and other conditions, not applicable to warranty.

The warranty period for special customized components shall be subject to mutual agreement.

3、Linear Performance Warranty

- 3.1 The power of a product shall be tested under standard test conditions which are: light intensity 1000 W/m², temperature 25°C, and AM 1.5.
- 3.2 The buyer must ensure to properly handle, transport, design the system of, install, use, and keep appropriate environment and maintenance for the products.

4、Preconditions

- 4.1 Losses caused by natural disasters, such as lightning, storm, hail, flood, fire, earthquake, war, and unrest, caused by the quality of non-product itself, are not within the scope of the warranty, After the construction of the photovoltaic power station is completed, it is recommended to purchase the property insurance of the photovoltaic power station.
- 4.2 This Limited Warranty covers neither the transportation charges of the products to be returned, nor the unloading and reloading charges and other charges such occurred.
- 4.3 This Limited Warranty does not cover the situation that the type and serial number of any products are illegible.
- 4.4 The buyer must ensure proper package, handling, transportation, storage, system design, installation, use, environment and maintenance for the product.

5、Warranty Transfer

- 5.1 These warranty terms exclusively apply to end-customers. End-customers in terms of this warranty is the purchaser of the respective PV-Module, who has purchased the respective PV-Module for end-use and has installed the same for the first time (First Installation).

6、Warranty Disclaimer

Except as expressly set forth above, the parties make no representations, warranties, or guarantees, either express or implied, oral or written, with respect to the product or otherwise, including without limitation any implied warranty (1) of merchantability, (2) of fitness for particular purpose, (3) non-infringement.

7、Apply to Module Type

Model: YH***W-*M (***=010-580, in increment of 5; *=5-40)
